

Oil Strike Cripples Industry

US Refinery Production Cut In Half

Denver, April 30 (AP)—An often-postponed strike of oil workers swept across the nation today. It closed some refineries, curtailed pipeline operations and started motorists lining up for gasoline.

Nearly 90,000 men—about half those who run the pipelines, refineries and distribution plants—walked out as facilities were closed down in orderly fashion.

CIO, AFL and Independent unions worked together. Socony-Vacuum's East St. Louis refinery was shut down when CIO and AFL members walked out together, even though they're tangled in their own jurisdictional dispute there.

In their patchwork of local negotiations, the unions are demanding a 25 cent an hour wage increase. With it, they want a differential of 6 instead of 4 cents for the 4 p.m. to midnight shift and a differential of 12 instead of the present 6 cents for the midnight to dawn shift.

Present wages run about \$2 to \$2.10 an hour.

California workers were ordered by union officials to stay on the job to avoid cutting critical supplies for the Korean war. Negotiations continued there as well as some other places.

"Most Promising"

Officials at headquarters of the Oil Workers International Union, CIO, in Denver said the talks in San Francisco between their representatives and the Shell Oil Co. are "the most promising."

They reported the union has trimmed its demand to 22 cents and that "a lot of other compromises are being kicked around." A settlement there could set a nationwide pattern, they added, saying that in general union and management negotiators were about 10 cents apart when the strike started.

The walkouts began at one minute after midnight. Some will not be complete until midnight Saturday to allow time to properly shut down refineries.

No Help From Government

Union officials estimate 44 per cent of the nation's daily refinery capacity—2,850,000 of the 6,500,000 barrels—is affected by the strike. The cut could go deeper as the movement of the crude oil is reduced by pipeline strikes.

There were no reports that the federal government, which tried three times without success to settle the dispute, was ready for another try.

New York Central Lays Off 4,000 Due To Strikes

New York, April 30 (AP)—The New York Central system announced today it was laying off 4,000 train service employees because of effects of the steel and oil strikes.

Those affected are primarily in the Pittsburgh, Cleveland, Chicago and Buffalo areas, where traffic to and from steel plants is virtually halted.

If the walkouts continue, a central spokesman said, they may cause other layoffs next week, including clerks in yards and freight terminals.

The spokesman said the central has on hand about 30 days' supply of fuel for its diesel locomotives, which would be stretched out by the expected decline of traffic. In addition, it has 47 days' supply of coal which could be used in steam locomotives the central would put back into service in event diesel fuel stocks ran short.

BULLETIN

Tokyo, Thursday, May 1 (AP)—An orderly May Day celebration turned into a screaming melee shortly before noon today. A band of Japanese and Korean Communists stormed the speaker's platform at Meiji park in downtown Tokyo, just before U. S. Socialist Norman Thomas was to speak.

About 50 Reds, waving Communist banners and singing the "Internationale," broke through police lines and began breaking tables and chairs on the speaker's platform.

The riot was quelled within 30 minutes, but scheduled speeches were cancelled for the day.

U.S. C of C Demands End Of Controls

Washington, April 30 (AP)—The United States Chamber of Commerce today officially demanded the prompt elimination of wage, price and rent controls, and called for a ceiling on the power of congress to boost taxes.

The chamber closed its 40th annual meeting with the approval of more than 50 statements on national policy. These included a denunciation of President Truman's seizure of the steel industry.

The business leaders also adopted without debate a recommendation that the Wage Stabilization Board be barred from settling labor disputes on non-economic issues such as the union shop—which WSB has urged in the steel dispute.

The chamber membership backed up—and even strengthened—the anti-controls position taken by chamber leaders in testimony on extension of the Defense Production Act. Calling for an end to deficit financing and a "substantial reduction in governmental expenditures," the chamber urged that the country employ indirect controls—taxation and general restraints on credit and money supply—as "the primary weapon against inflation."

The 1,000 voting delegates roared condemnation of the president's seizure order in a resolution saying: "Not to challenge this action is to condone assumption by the executive branch of government of powers which can nullify the American concept of due process of law."

Florida Couple Held For Brutal Murder Of Boy

Tampa, Fla., April 30 (AP)—A former maid and her husband were arrested today after the brutally beaten body of the woman's 4-year-old son was found hanging from a rafter in their home.

Deputy Sheriff L. J. Swann, a veteran of 20 years in law enforcement, called it "the most brutal, vicious piece of work I've ever seen in all my experience as an officer."

Swann said first degree murder charges were being prepared against Alice Cliffe, 28, and her husband, John Cliffe, 27, a painter.

The deputy said Mrs. Cliffe told him the boy, Wayne, was her illegitimate child and was "hard to handle."

Swann said the couple told this story: To correct the child, they made him stand up all day yesterday without food or water and beat him with the buckle end of a belt.

At 10 p.m., when they were ready to go to bed, they tied his hands and feet, taped his mouth, and hung him from a rafter with a piece of curtain so that his feet barely touched the floor.

When they went to sleep, he was still "grunting through the tape and squirming." About 3 a.m., Mrs. Cliffe awoke and found the boy dead. They waited until 11 a.m. to notify the sheriff's office.

Mrs. Cliffe is expecting another child.

Expect Reds to Ask Armistice Session

Munson, Korea, April 30 (AP)—The Communists are expected to call for an armistice meeting in the next few days which may make or break Korean Truce talks.

The outcome will depend on Communist reaction to a secret United Nations package offer.

Officials in Washington privately agreed the secret package offer was a three-point program keyed to the U. N. demand for "non-forcible repatriation" of prisoners of war, which the Reds repeatedly have called a "preposterous demand."

UN Artillery Hits Western Korean Front

Seoul, Korea, Thursday, May 1 (AP)—Artillery fire roared along the Western Korean battlefield today and Allied ground forces were alert for any Communist May day tricks.

U.S. Sabre jet pilots reported shooting down six Russian-built jets and damaging three in air battles earlier Wednesday in far Northwest Korea. A U.S. marine fighter damaged another.

May day is a special day for the Reds, and Gen. James A. Van Fleet with heavy artillery fire let them know his U.S. Eighth army was ready.

Night Cannon Duels

Artillery duels broke out last night and raged on early today.

Then followed brisk skirmishes at various points along the twisting, 150-mile battle line. Flashes of the big guns could be seen from Munson, the Allied advance armistice camp in Western Korea.

Communist probes stepped up on the East-Central front in the Munding valley area.

The U.S. Fifth air force reported its Sabres outnumbered the MIGs for a change in Wednesday's three dogfights. The Sabre jet flights totaled 64 planes as against 33 MIGs.

The air forces said two of the Red jets were destroyed east of Sinuiju, south of the Yalu river, when 35 Sabres jumped 10 MIGs trying to reach Allied fighter-bomber farther south.

Three Others Hit

Pilots said three of the eight remaining MIGs were hit.

In two other dogfights later in the day, 29 Sabres knocked down four of 23 MIGs, the air force reported. Allied losses, if any, are listed only once a week.

Fighter bombers screened by the swift Sabres blasted 17 new cuts in the Communists' battered rail lines in Northwest Korea.

Predict 2,500 M.P.H. Airplanes, Atomic-Powered

Washington, April 30 (AP)—Atomic-powered airplanes now being developed may make it possible to fly around the world under cover of darkness—beating the clock—and on a pound of fuel with plenty to spare.

This prospect was presented today by "planes," official publication of the Aircraft Industries Association.

The magazine reported that the two aircraft engine manufacturers currently engaged in the atomic-powered project "have progressed well beyond the theoretical stage, although details are veiled by 'top-secret' classification."

The article added that any target would be within easy reach of a nuclear-powered bomber able to outrun the sun. A night flight would make such a plane less vulnerable to the enemy, the magazine said.

The atomic energy commission and the air force have announced the award of nuclear aircraft contracts to Boeing Airplane Co., Seattle, and Pratt & Whitney Aircraft Engine Co., East Hartford, Conn., and to consolidated Vultee Aircraft Corp., Ft. Worth, Texas, and General Electric company's gas turbine division, Lockland, Ohio.

The first of these contracts was announced last year. Actual production of an atomic airplane—which could attain speeds of 2,500 miles an hour or more—may take at least two or three years.

Corn Price Drops To New '52 Low

Chicago, April 30 (AP)—A heavy barrage of selling sent corn tumbling to new lows for the year and longer, unsettling the rest of the market on the Board of Trade today.

It wasn't until around mid-way in the session that the market started retreating, even though there was very little in the news to hold it up at any time. But from mid-day on a slight recovery at the close lifted prices from the day's bottoms.

When closed 13 to 2 cents lower, 21-31 lower, oats 1-11 lower, rye 11-21 lower, soybeans 1-11 lower and lard 8 to 22 cents a hundred pounds lower.

Prime factor in the corn drop was the belief, confirmed after the market's close, that deliveries of cash grain on May contracts would be heavy. Tomorrow is the first day for such delivery. The clearing house reported 2,065,000 bushels of corn would be delivered.

The slump carried all corn contracts below the lows touched Feb. 27, thus joining wheat and oats which had dropped below the February lows earlier. Only rye and soybeans remain above those lows. The February 27 lows were reached on a decline which started last December.

PLAN NEW STATION

Chester, Ill., April 30 (AP)—Cecil W. Roberts, operator of a Farmington, Mo., radio station, said today he has filed a petition with the Federal Communications Commission for permission to start a Chester, Ill., radio station.

Offer No Strike Bill For Defense Industries

Washington, April 30 (AP)—A new and tough bill to prevent strikes in defense industries was introduced in the House today as Congress reacted swiftly to the walkout of CIO steelworkers.

Offered by Rep. Smith (D-Va.) and reportedly backed by some influential Republicans, the bill would give Congress power to obtain injunctions in strikes during national emergencies and would assure indefinite operation of strike threatened industries during labor-management negotiations. Smith was co-author of the Smith-Connally wartime law which provided for plant seizure and other stop strike measures.

The measure was slated for prompt consideration by the House armed services committee.

The strike followed a federal district court ruling that President Truman acted illegally in seizing the steel industry to avert a walkout.

There were these other developments as members of Congress debated Truman's steel tactics:

1. The House judiciary committee postponed until next Tuesday a vote originally scheduled for tomorrow on proposals to impeach the president.

2. An early meeting of the House tomorrow interferes with the scheduled committee session.

3. House Republican leaders said Truman's continued failure to invoke the Taft-Hartley law may spur demands for his impeachment.

4. On the other hand, Sen. Morse (R-Ore.) announced he would vote for a Senate labor committee vote on his bill to give the president power to seize an industry in a national emergency if supported by Congress.

5. John A. Stephens, vice president of the U.S. Steel Co., urged that wage-price controls be allowed to expire June 30. He told the Senate banking committee that the Wage Stabilization Board's pay raise recommendations in the steel case "make it clear that there is no longer any control over wages."

Eisenhower Wins 27 Bay State Delegates

Boston, April 30 (AP)—Gen. Dwight D. Eisenhower scooped up 27 of 28 delegates to the Republican national convention in yesterday's Massachusetts presidential preference primary, nearly complete returns showed tonight.

In record-shattering balloting, Eisenhower received more than 240,000 write-in votes on the Republican ticket—136,000 more than Sen. Robert A. Taft of Ohio—and was second only to Sen. Estes Kefauver of Tennessee on the Democratic side.

The "write-in" result does not bind convention delegates.

Informed of his victory in Paris, the general said it "is an overpowering sort of thing," adding: "It has begun to look kind of serious."

In Washington, Taft said he was "somewhat disappointed."

It was the general's biggest primary victory, and, in figures compiled by the Associated Press, moved him up to within two of Taft on the basis of delegates pledged, favorable or committed nationally to the two leading contenders for the G.O.P. nomination.

With only a handful of precincts outstanding Eisenhower had piled up about 69 per cent of the Republican vote cast.

The Associated Press delegate table gives Eisenhower 266 delegates and Senator Taft, 268. Taft supporters claim 305 for their man.

There are 38 Massachusetts Republican delegates to the Chicago July convention. Taft has only three of them—the lone district delegate he won and two delegates-at-large who were unopposed and pledged to him.

Eisenhower also had two of the 10 delegates-at-large. The other six are not committed.

With 1704 of the 1739 precincts in the state reported the Republican score was: Eisenhower 240,724, Taft 104,247, Gen. Douglas MacArthur 21,822, Gov. Earl Warren, Calif. 1,479, and Harold E. Stassen 1,216.

On the Democratic side with 1706 precincts counted, the vote was: Kefauver 28,485, Eisenhower 15,583, President Truman 7,570, Taft 5,581, Gov. Paul A. Dever, Mass. 2,261, Gov. Adlai Stevenson, Ill. 1,282, Sen. Richard B. Russell, Ga. 667.

Governor Dever, who will lead the Massachusetts delegation to the Democratic convention, said the Democratic primary was "no contest" because of the "extremely light vote" on the Democratic side.

The 72 Democratic delegates—each with a half-vote—are unpledged but many of them are for Dever as a "favorite son."

NEW MARKETING HEAD

Anna, Ill., April 30 (AP)—B. F. Hartline of Anna said today he has been advanced to acting superintendent of the Illinois state division of markets.

Hartline, formerly field investigator, succeeds Harold A. Kaeser, who was appointed manager of the Illinois Fruit Growers Exchange at Carbondale.

Court Gives Mills Back To Government

Washington, April 30 (AP)—The U. S. Circuit Court of Appeals put the strike-bound steel mills back in possession of the government tonight, but only temporarily, pending an appeal of the whole historic fight to the Supreme Court.

Meantime, the nation-wide strike continued. The administration hoped that the CIO steelworkers, who once again were technically employees of the government, would call off the walkout, but union president Philip Murray was silent on his plans.

The circuit court, in a 5 to 4 decision, stayed until Friday afternoon the effectiveness of an anti-seizure order issued by Federal District Judge David A. Pine.

Judge Pine, ruling that President Truman acted illegally and unconstitutionally in seizing the vast industry to head off a strike, issued an injunction declaring the mills must be returned to their owners.

The appeals court made its stay indefinite, a period that could run into weeks. It will remain in effect until an appeal to the Supreme Court is acted upon and should the Supreme Court refuse to review the case, the stay would continue, allowing continued seizure, until the appeals court issues a further order.

Appeal By Friday

The only requirement to keep seizure in effect until the high court acts is that the government file its Supreme Court appeal by 2:30 p.m. (CST) Friday—something government attorneys promised to do.

In the 5 to 4 decision of the circuit court, Chief Judge Harold M. Stephens and Judges Bennett Clark, Chief Judge Stephens said in behalf of the minority.

The judges who voted for granting the brief stay are Charles Fahy, Henry W. Edgerton, David L. Bazelon, E. Barrett Prettyman and George T. Washington.

Their majority opinion said in part:

"In order fully to preserve the jurisdiction of the Supreme Court and of this court in these controversies, it is ordered by the court that the orders of the district court granting the preliminary injunctions in these cases be, and they are hereby, stayed until 4:30 p.m., Daylight Saving exercise in emergency for protection time, on Friday, May 2, 1952, and if petitions for writs of certiorari in these cases have been filed in the Supreme Court, then until the Supreme Court acts upon the petitions for writs of certiorari; and, if the petitions for writs of certiorari be denied, then until the further order of this court."

The ruling by the nine-man appeals court does not in any way deal with legality of seizure. It simply postpones for almost two days the effectiveness of the Pine order.

It does, however, return the 650,000 CIO-steelworkers to the technical status of government employees who can not legally strike. CIO President Murray called a strike yesterday afternoon as soon as Pine's decision was announced and most steelworkers are ready to go.

"Nothing To Say"

At Pittsburgh, Murray said "he would have no comment tonight on the circuit court action. Asked if the order would mean union instructions for the striking steel workers to return to work, Murray said: "I will have nothing to say tonight."

The ruling came after a heated hearing in which Solicitor General Philip Perlman, acting head of the Justice department, told the court "we can get those men back... before the furnaces get cold" if the Pine injunction were stayed.

Company attorneys, however, insisted the government had nothing better to go on than a "rash assumption" it could get the men back.

While the court hearing was on, the Senate Republican policy committee met informally and its chairman, Senator Taft of Ohio, said it was generally agreed the president should use the Taft-Hartley law before asking Congress for any new legislation to cover the steel crisis.

Taft said he did not think it would take over three days to get injunction action going.

He said there had been some suggestion that Truman might propose special action to Congress Friday, but he reiterated that existing remedies should be tried first.

Contentions Almost Same

The government contentions presented to the court of appeals by Baldridge were essentially the same that Judge Pine had rejected.

He asserted that the district court was "without power under the circumstances to enjoin presidential action."

He contended that the order "interferes with the sovereign functions of the government."

Baldridge "hung his case on the theory of 'inherent' powers, not specifically set forth in the constitution, which he said the president can exercise in emergency for protection of the country. Judge Pine had rejected that theory completely.

750,000 Men Called Away From Work

The government Wednesday regained control over the steel mills—now strikebound—pending a ruling by the Supreme Court on President Truman's seizure action.

But a wave of strikes, the biggest in 30 months, left more than 750,000 workers idle in steel, oil and the communications industry.

A U. S. Circuit Court of Appeals 5 to 4 decision in Washington put the government in the steel business again. The court made its stay indefinite. The decision which did not deal with the legality of the seizure will remain in effect until the Supreme Court acts upon an appeal in the case. Should the high court refuse to review the decision, the seizure could continue effective until the appeals court issues a further order.

But the government must file its appeal to the Supreme court by 2:30 p.m. (CST) Friday, to keep its seizure effective.

Philip Murray, president of the CIO steelworkers, said he had no comment on the appeals court decision.

Allied Layoffs

With some 650,000 CIO United Steel Workers on strike across the nation, the U. S. Steel Corp. gave the first report of layoffs in allied industries. The company laid off all its 14,500 coal miner employees for the duration.

The Baltimore and Ohio railroad ordered almost 6,000 workers furloughed because of the steel strike and the New York Central system said it was laying off 4,000 because of effects of the steel and oil strikes.

A government embargo on steel shipments brought continued idleness to 1,500 Studebaker Corp. employees in South Bend, Ind. The company postponed indefinitely the recall of workers who had been furloughed last February.

No Settlement Sign

The four weeks old strike of 31,000 AFL Western Union employees dragged on without any sign of an early break. Western Union said its operations were 50 per cent of normal. The union said the strike was 98 per cent effective.

Authorize Freight Rate Increase For Illinois Lines

Chicago, April 30 (AP)—The Illinois Commerce Commission today extended to railroads operating within Illinois the six per cent increase in freight rates authorized by the federal Interstate Commerce Commission April 11.

The order is effective May 2 and expires Feb. 28, 1954, the same as the federal order.

The Interstate Commission had authorized a 9 per cent increase for railroads operating in the south and west and a 6 per cent boost to eastern carriers. Illinois is considered an eastern state.

Industry spokesmen said the last increase, added to increases granted in recent months, brought rate raises approximately up to the 15 per cent asked by the carriers last fall.

Several commodities—including grain, vegetables, coal, coke and some building materials—were exempted from the general increase but given other variable raises in shipping rates.

In Illinois, grain and grain products, soybeans, soybean meal, cake, and linseed oil were given 12 per cent increases.

Shipments on coal to and from Belleville and various towns in the Alton-East St. Louis area were upped 16 cents a ton.

May Use Old Strip Mines For Fishing

Carbondale, Ill., April 30 (AP)—The possibility of using abandoned strip mines in southern Illinois for sport fishing will be looked into soon.

David Elder, of Cobdon, aquatic biologist, said that the investigation into the prospects of turning old strip mines into fishing holes will be part of his new job.

He has resigned from a fisheries management post with Southern Illinois University to work for the Trux Trax Coal Mining Corporation, Chicago.

CZECH JET PLANE

Vienna, April 30 (AP)—Dr. Alexei Cepicka, Czechoslovak defense minister, says his country is producing jet planes with the assistance of the Soviet Union. His statement appeared in the Prague newspaper Rude Pravo which reached Vienna today.

The son, Nelson, was awakened in his upstairs bedroom and tried unsuccessfully to arouse his father, who slept on the first floor. Young Pollard rushed out of the burning house, broke down the door to his dad's bedroom and carried him outside through the fire and smoke.

HOW ABOUT YOUR MAIL BOX
The U. S. Post Office Department has designated this week as Rural Mail Box Improvement Week, an event everyone who receives mail along the rural routes should hasten to observe. Whether the mail box is directly in front of the owner's residence or down the road at the "four corners," it should be put into first class shape if its not that way now.
The Department has prepared a list of pointers to guide rural boxholders in maintenance and repair of their individual "post offices." They are practical suggestions which deserve immediate attention on every route in the Jacksonville area, and elsewhere:
See that posts are securely erected—are not leaning badly—and that box is fastened securely.
Replace obsolete box if it is hard to get mail into it, or if it is hard to see into it for letters that you want mailed.
Name should be painted on side of box which carrier approaches (or can be on front of box if several boxes are closely grouped together).
It is a big help if several boxes are neatly and closely placed on a plank extending between two posts.
Bottom of box should be 42 inches above roadway, and should be on an arm extending out away from the post, in such a manner that it can be easily reached, with all obstructions (including snow and parked cars) promptly removed.
Fill ruts with crushed rock or broken brick or cement.
Drive your own car up to your box. If you can easily reach your mail from behind the wheel of your car, reaching out the right hand side as the carrier is required to do, then the chances are that your box is pretty well located. But better yet, talk to your carrier about the proper location and the correct setting.
Your carrier serves this box 305 days every year. If it is correctly set it lightens his work and saves him time so that he can more quickly serve other patrons farther along his route.
This will be appreciated, for with the rapid development of housing on acreages, the work load of most rural carriers has more than doubled in the past few years.
Your mailbox is the front door to your home. Since it is usually in front of your home, its neat appearance will add considerably to the neat appearance of your home. Ruts filled, box and post painted white, possibly a few flowers planted behind it.

THE BEST WAY TO BID A WIFE GOODBYE

BY HAL BOYLE
New York.—(AP)—How to say goodbye to your wife in the morning? More and more thoughtful Americans believe this is the crucial matrimonial problem of modern times. At least I sometimes get that impression after listening to wives discuss the subject.
All agree that their husbands, thoughtful though they may be on other occasions, have neglected the art of delivering the daily farewell.
"My husband is in a fog from the time he gets up until he goes out the door," one wife complained. "Sometimes I wish he would even beat me anything to show he realized I was alive."
Another wife objected to the peck on the cheek her mate gave her en route to his coat and hat.
"There is no greater insult than an absent-minded kiss," she affirmed.
Several more wives grieved about the silent treatment accorded them by husbands with a chronic habit of reading the newspaper at breakfast.
The basic trouble in these situations appears to be that wives feel they are doomed to another lonely day in the home while hubby is off to another gay gallop at the office. The husbands, on the other hand, don't intend to be thoughtless. They aren't awake yet. No man ever really comes to his full senses before noon.
But if a fellow can do his work

Let Kids Have TV as Treat After Play, Companionship

If you're worrying about whether or not television is harmful to your children—and a lot of parents are these days—here is some sound advice from an authority on child health and recreation.
He says: "I don't want kids watching things. I want them doing things. They should be solving problems, modeling in clay, making things at a work bench, experimenting in chemistry, throwing a ball, playing a trombone, skinning a squirrel. They should be learning skills, skills, skills. A person's skill learning decade is from ages four to 14. A pattern formed in a skill between those ages is never lost."
The expert also pointed out that he didn't believe TV programs, of themselves, have any harmful effect on children or put wrong ideas in their heads.
So there, perhaps is your answer to the TV problem. Just make sure that television doesn't cut in too sharply on your children's active lives.
YOU WILL HAVE TO BE FIRM
See that they have plenty of time for active play, plenty of time for doing things and plenty of time for companionship. Then let them have TV as though it were the desert after a meal.
It won't be easy to stick to that kind of plan. The first reason is that it will mean you will have to be firm in holding to your decision of how much TV a week is enough for your children. It's never easy to be firm with children.
The second reason is that it is the natural inclination of parents to be tolerant of any safe diversion that will keep their children quiet and out from under foot.
It may be trouble, but doing the right thing by your children is usually trouble.
Doing the right thing by children, however, is always worth the trouble in the end.

Hollywood.—(NEA)—Guys and Dolls: "I'll go on making swash-bucklers for my own company. But in my outside pictures, I want to do things that will help me as an actor against the time when I have to give up all this jumping around."
Burt Lancaster, at 38, explaining his reason for biting off a chunk of solid drama in Hal Wallis' "Come Back, Little Sheba" and concealing his muscles under a business suit for a change.
"Anyhow," he continued, "I don't understand people who talk about a Burt Lancaster type of picture. I've done a variety of roles. I remember when I went to Columbia with 'The Flame and the Arrow.' They weren't interested in making such a film and told me they wanted a Lancaster type of picture—like 'The Killers.'"
"Not too long ago, I went back to Columbia with an idea for a tender story about parents and children. The same executive howled that the studio was only interested in a typical Lancaster picture. 'Like what?' I asked. 'Why,' bristled the executive, 'like 'The Flame and the Arrow,' of course."

Monica Lewis, a new movie goddess, whispered the "bad" news about her career—she's losing pots and pots of money as a flicker lovely.
Her show business pals got the idea that Monica was being offered by F. Knox and Bing Crosby's money belt when Hollywood Pled Piped her right out of night club stardom. But now, a little over a year later, Monica is confessing:
"I make a third of what I used to make in night clubs alone. That's not counting what I used to get in radio, TV and recordings. I wanted to be a movie actress, that's all. I had to choose between making big money and doing what I loved best. It was an emotional kind of decision and I won't make any claims to being intelligent. All I know is that it's emotionally satisfying."
Her current chore: A nice role in MGM's "Everything I Have Is Yours."

THIS IS HUSH-HUSH
It's been kept a secret that Dana Andrews is turning over the \$100,000 he's being paid by Columbia for "Assignment-Paris" to Producer Sam Goldwyn as the price for his freedom from a Goldwyn contract.
But Dana slipped me the news and added:
"I'm reaching the age at which I can't afford to make mediocre movies. You can't blame a producer for wanting to get an actor off the books if there's a chance for a loan-out for him. But it's bad for the actor most of the time. I've been under contract to Goldwyn for 12 years. I think that's a record for a Golden star. We're parting good friends."
As he sees his future: "I have enough money so that I don't have to do a picture in order to keep eating. If I can't get top grade movies, I won't do any. Hollywood's changing. Pot-boilers don't boil the pot any more."

"O. K., so do me something," sexy Marilyn Monroe shrugged. "I'm a bookworm and proud of it."
Marilyn adores Tolstoy and Dostoevsky, totes around a worn copy of Rainer Maria Rilke's "Letters to a Young Poet" and admitted on the "Darling, I am Growing Younger" set.
"Sure I'm a book girl. But I'm not an intellectual and I'm not interested in being one. I read because I want to expand as much and grow as much as I can."
Marilyn on mixing glamour and brains:
"I don't think men prefer dumb girls. But they're not looking for intellectuals, either."
BACK TO DOUBLE HARNESS
It's take it or leave it stuff, but Peter Lind Hayes and Mary Healy have decided not to let Hollywood or Broadway ever split them up again as a team!
If other husbands and wives can work together, so can Peter and Mary, who are in double harness as the stars of "The 5000 Fingers of Dr. T." and are already talking about another co-starring film for Producer Stanley Kramer.
Peter on his flop in UI's "The Senator was Indiscreet" back in 1947 (playwright George S. Kaufman, William Powell and Nunnally Johnson flopped right along with Peter):
"You get a tremendous buildup as a comedy star in the east, then Hollywood brings you out to play a straight role. I did nothing, but open doors in the picture. People said, 'Hey anybody could have played that part,' and they were right. The picture was good, I thought, but it was badly timed. Our government was no longer funny when it was released."

Cheap steel was first made possible in 1856 by the Bessemer process.

Chronic Leukemia Victim Can Be Aided by X-Ray, Chemicals

By Edwin P. Jordan, M.D.
Written for NEA Service
The name for the disease called leukemia, was originally proposed by the famous German pathologist, Virchow, more than 100 years ago. Translated it means "white blood." Of course, the blood does not turn completely white in leukemia, but there is a "whiteness" about it which is caused by the destruction of many normal red cells and their replacement by colorless cells, known as white cells or leukocytes. Leukemia is really a condition in which the white cells have grown wild. Not only are there more white cells than there should be in leukemia, but also there are abnormal forms and kinds.
Under normal conditions there are between 5,000 to 10,000 white cells in a cubic millimeter of blood (a cubic millimeter, incidentally, is an extremely small quantity, but in leukemia, the number of white cells—normal and abnormal—rises to 30,000 or 40,000 and sometimes as high as 100,000 or more in a cubic millimeter.
There are several kinds of leukemia named according to the type of cell which is predominant; and whether the condition is acute or chronic. Regardless of the type, however, the cause of leukemia is not known, although many theories have been suggested.
In the rapid or acute case of leukemia, regardless of the type of cells involved, the body becomes overwhelmed with these abnormal leukocytes. The patient weakens rapidly. Bleeding may take place from the gums or into the skin, and the latter is usually pale and slightly yellowish looking.
In the slower or more chronic cases, enlargement of the lymph glands in the arm pits, groin, or neck may be the first sign of the disease. The spleen also is usually enlarged. Increasing fatigue is another common early sign.
No Foreseeable Sign
The person who discovers a cure for leukemia should be highly honored. As things are today, however, a cure for the disease is not immediately in sight.
Those who are afflicted with leukemia, especially the chronic varieties, can be helped temporarily in many cases by blood transfusion, by X-rays over the spleen or by certain kinds of arsenic preparations taken by mouth. Radioactive phosphorus, urethane, nitrogen mustard, ACTH and cortisone, and many other substances have been tried and may have a place in some cases. However, up to the present, no reliable method of cure has become available.
The only good thing that can be said about leukemia is that it is not

The MATURE PARENT
Approval at Home Is What Youngsters Want Most

BY MURIEL LAWRENCE
The worst punishment that can be inflicted on a British child is to have to hand his parents a bad school report. The best reward he can be given is to be able to hand his parents a good school report.
This is the finding of an investigation just completed by Britain's National Foundation for Educational Research. It was initiated several years ago by the Government to provide basis for a House of Commons debate on pending legislation to prohibit all corporal punishment in the British schools.
It is a fascinating finding, as full of stimulating implications as Jack Horner's pie was full of plums.
There's no doubt about it. The survey establishes the fact that home approval outclasses any other form of reward so far as British children are concerned. Though they are pleased by victories of athletic team or by a good class showing in Latin or mathematics, the reward that really rings the bell for Albert, Lloyd and Jack is a "well done" from their parents.
This certainly upsets a good many apple carts. British teachers, for example, had listed their own "quiet appreciation" of good work as a student's most inspiring incentive. Next, they felt that "public praise" before the student body would be a gratifying return on effort invested by Albert, Lloyd and Jack.
They miscalculated. The children felt that instead of being inspired by "public praise," such praise would be horribly embarrassing. As to the "quiet appreciation," Albert, Lloyd and Jack will forego it every time if Mr. Chips will just give them a nice mark to take home and show Mum and Dad.
The British teachers also seem to have misjudged the British child's attitude toward "group approval." They thought "election to class officer" was bound to be a most rewarding experience for Albert or Lloyd or Jack. But those young sprigs themselves? That's different. They took a dim view of the popularity spotlight's value, still doggedly holding out for the superior worth of home approval over any other brand.
So far as I know, nobody has made a similar survey of American children's ideas on good rewards and detestable punishments. But I would like to register my conviction right now that if they ever do, they will discover exactly what the British investigators discovered.
They will find out that all the kinds of approval that can come their way our sons and daughters cherish most dearly.
I bet our investigators will say to us, "Your praise is their salt in the stew, the whipped cream on the shortcake. Though Teacher's smile is pleasant and the admiration of the 'crowd' intoxicating, what makes the world go round is a mother's. And did you do that all by yourself, darling?" and a father's, "Never mind, son. The fact you tried is what counts with me."
I make this point because of our growing habit of passing the buck of providing the wherewithal for children's self-esteem to nearly anyone who'll take it—to nursery school teachers, child guidance experts, servants, summer camp counselors and grandparents.
The real implication of the British is that while others may try to do our job for us, home approval is something a child just cannot get anywhere but in his home.

Japanese Peace Treaty Ends Many of Truman War Powers

BY PETER EDSON
NEA Washington Correspondent
Washington.—(NEA)—President Truman's seizure of the steel industry to prevent a strike has aroused so much antagonism in Congress that the whole subject of presidential emergency powers is bound to come up for revision. An opportunity to consider this issue arises automatically in Congress within the next 60 days.
The chance to restrict the President's powers comes indirectly from ratification of the Japanese peace treaty on April 28. This will mark the end of the last existing "state of war" declared in 1941.
With the making of this peace, some 150 of the President's statutory war powers would come to an end. About 60 of these powers are considered important for carrying on the "state of emergency" which President Truman proclaimed Dec. 16, 1950, after the outbreak of the Korean fighting.
Through the Bureau of the Budget and the Department of Defense, President Truman has asked Congress to renew these 60 war powers until six months after the end of this Korean emergency.
Because of the press of other business and an Easter vacation—Congress has had time only to grant the President a 60-day extension of these emergency powers. It runs to June 30.
In considering renewal of these powers, however, Congress will have a chance to take on any amendment it chooses to curb the President's powers to seize industry, start another Korean war in, say, Indo-China, or anything else that congressional whim or the political temper of the times may dictate.
LIMIT OF POWERS NEVER DEFINED
Big books have been written and more and bigger books will be written on this subject of the powers of the U. S. President. The reason is that the limit of these powers has never been defined.
These powers are of two kinds—Constitutional and statutory. The latter are specific powers granted by act of Congress. The former are broad and general. Together they make any U. S. President while in office one of the most powerful heads of a state the world has ever known, even though he may be kicked out every four years.
Article Two of the U. S. Constitution says simply that "The Executive power shall be vested in a President of the United States of America."
Section two of this Article specifies in brief that the President shall be Commander-in-Chief of the Army and Navy...He shall have the power to make treaties, by and with the consent of the Senate....The President shall have the power to fill up all vacancies....He shall give to the Congress information on the state of the union....He shall take care that the laws be faithfully executed....He shall be removed from office on impeachment....for high crimes and misdemeanors.
Under this broad grant of power Thomas Jefferson purchased Louisiana. James Monroe declared the Monroe Doctrine. Abraham Lincoln freed the slaves. Franklin D. Roosevelt promulgated the Atlantic Charter. And President Harry Truman sent U. S. troops from Japan into Korea to stop Communist aggression.
None of these acts may have been authorized by any specific language in the U. S. Constitution or in any law. But they have stuck.
FDR CLAIMED CONSTITUTIONAL POWERS
President Franklin Roosevelt issued more than 3900 executive orders during his 12 years in office, all under the claimed authority of his Constitutional powers as chief executive. These orders were not laws. The dispute still rages as to whether they were Constitutional. But again, they stuck.
In addition to these Constitutional powers, President Roosevelt and Truman had during the war years some 600 statutory, emergency powers. They were all dumped on the President's desk by act of Congress to meet new emergencies as they arose.
The well-known 80th Congress tried to wipe the slate clean on a lot of these World War II powers, but the eraser didn't work too well. An "end of hostilities" was officially declared in effect Dec. 31, 1946. That wiped some 50 powers off the books.
Another 200 minor war powers ended the following July. The big Decontrol Act of the following October terminated most of the authority in the First and Second War Powers Acts. That took away the President's power to recognize government agencies almost at will. Of the economic controls, authority to fix rent ceilings was almost the only one carried over and even that was limited.
There still remained some 350 war powers and this list was further extended when President Truman declared a national emergency in December, 1950. Defense Mobilization Acts then gave him still further powers to manage the economy and the armed forces.
Many of these powers are routine, like permitting the Department of Defense to examine the books of war contractors. Others, like authority to assume control of transportation and strengthening the espionage laws are of top importance.

EAT WELL for Less

Future Officers Hearty Eaters
BY GAYNOR MADDOX
NEA Food and Markets Editor
There are 2400 cadets at the United States Military Academy at West Point. Their ages range from 17 to 22 years. They eat \$1,250,000 worth of food a year; each man's food allowance is \$1.35 a day. During one month they devour 8000 dozen eggs, 18,000 pounds of sugar, 70,000 quarts of fresh milk, 75,000 pounds of potatoes, 6500 pounds of yellow margarine and 80,000 pounds of meat. It takes 395,880 cubic feet of gas to keep a battery of ranges and ovens cooking these mountains of food.
William H. Backman, a civilian, is cadet mess manager and does all the purchasing. Matthew D. Gowens, with wide hotel experience, is chief steward of Washington Hall, where the cadets eat. The chief dining hall steward is Ludwig Hammett who says the cadets' favorite foods are always the same—milk, ice cream, steak, steak and more steak.
Chief steward Gowens plans his menus weeks in advance, keeping them balanced and within the budget and as near cadet preference as possible. His job is to have each man leave the table full and happy, but not to have any waste or leftovers. Incidentally, he makes 200 gallons of coffee for a meal.
His menus may be valuable to you if you have a few hungry men—yours or otherwise—in your home to feed, even though your budget may not be \$1,250,000 a year. Here are some of them:
Dinner: Scotch mutton broth with barley and crisp crackers, grilled pork chops with country gravy, apple sauce, roast potatoes, buttered carrots, whole wheat bread, butter, blueberry pie, coffee, milk.
Dinner: Chilled fruit salad, crisp celery hearts and pickles, fried steak (Southern style), baked potatoes, buttered garden peas, Vienna bread, butter, vanilla ice cream, coffee, milk.
Dinner: Hearts of lettuce with mayonnaise dressing, creamed tuna fish flaked a la king on toast, peanut butter, bread, butter, fruit compote, coffee, milk.
Dinner: Carrots and raisin salad with mayonnaise dressing, roast leg of spring lamb with pan gravy, milk jelly, scalloped potatoes, braised cabbage, cracked wheat bread, butter, devil's food cake, coffee, milk.

Lutheran Circle Of Chapin Has Birthday Social

The Mary and Martha circle of the St. Paul's Lutheran church at Chapin met Thursday afternoon and enjoyed a birthday social. Members were grouped according to the month one's birthday fell in. Those with birthdays in April were presented with an "April Fool's day gift." Recipients were Mrs. Paul Sieving and Mrs. Fred Lakamp.

During the devotion Rev. Harry Timm concluded a discussion on Revelation 20 and also discussed events leading up to the publication of the standard authorized version of the Bible.

Twenty-six members were present and answered roll call by giving a verse from the sermon on the Mount. The Sunshine committee reported sending Easter cards to the men in service. Members voted to renew the subscription of the publication. This Day, taken through the public library at Jacksonville, for a period of three years.

Mrs. Sieving and Mrs. William Nienhiser were named as a kitchen planning committee. Named to serve with the president, Mrs. Carlton Schumacher, on a nominating committee, were Mrs. Albert Nienhiser, Mrs. Arlo Schumacher and Mrs. Warren Brockhouse. Reservations for the L.W.M.L. convention are to be made to Mrs. Clarence Boatman.

A skit, "If Miteboxes Could Talk," was presented by Mrs. Harry Timm, Mrs. Eldred Werries, Miss Lorna Frick, Mrs. Edward Middendorf and Mrs. Gary Beebe.

Lovely refreshments were served by the hostesses Mrs. Warren Brockhouse, Mrs. Vernon Sumpter and Mrs. Boatman. The table decorations were in keeping with the birthday social.

New Members Of Moose Lodge Are Feted At Dinner

One hundred and fifty were present for a special dinner and program sponsored by the Women of the Moose for the Moose lodge members and in honor of the class of candidates and new members joining this year. A special guest was membership director, John E. Jeffries of Mooseheart, Ill., who is directing a membership campaign in Jacksonville.

The dinner was served Tuesday evening, April 29 in the lodge rooms, 2201 South Main street. Mr. Jeffries spoke after the dinner in behalf of the local lodge and the Auxiliary concerning the membership drive, the results to date and prospects for the future. Announcement was made that a dance will be held Saturday night, May 3 in the lodge rooms for all members of the lodge and the Auxiliary and their guests. Excellent programs have been planned for the summer and hopes are for many new members to be present for the planned activities. Howard Shults is the club manager and Ralph F. Withee is secretary of the local Moose lodge.

Casualty Rate High Among Non-Driving Walkers

Pedestrians who have never driven an automobile received a special warning Wednesday from Sgt. Francis Willner, local representative for the National Pedestrian Protection Contest, sponsored by the American Automobile Association.

The officer pointed to statistics which show that nine out of ten adult pedestrians who are killed in traffic are non-drivers. The reasons for this extremely high ratio of casualties among non-driving pedestrians is that they do not recognize the problems of the man behind the wheel.

"Non-drivers fail to realize that it takes time to stop, even at moderate car speed and that the driver has many things to watch. He may miss seeing a pedestrian," said Sgt. Willner.

"Pedestrians who can not drive also are inclined to misjudge the speed at which automobiles travel." "For example, a vehicle going 30 miles an hour is travelling 10 times as fast as the average person walks."

To overcome traffic hazards to themselves, he prescribed to non-driving pedestrians a policy of extra precaution in crossing streets.

"Always cross at corners, obey traffic signals, never dart into the street as a car approaches but wait until the way is clear," Sgt. Willner stressed.

He also urged drivers to always be aware that the vehicle they drive has the power to kill and to give pedestrians the consideration which can save their lives.

Two Pittsfield Clubs Join In Voting Record

Pittsfield, Ill.—In the "Let's Vote" project on April 8th, sponsored by the Pike County Farm Bureau, the local Rotary and Lions Clubs made remarkable records.

Rotary President Al Wuellner reports that 32 of the 33 members voted, and 35 other eligible voters of the Rotary families also voted.

Chairman Ross J. Nichol, Lions educational committee, reports that 80 of the 82 Lions eligible voters voted. The record for the Lions families is not available.

This near perfect record of the two local service clubs is outstanding and shows what can be accomplished with sustained effort and publicity.

Fence Stretcher Pulls Loose And Breaks Man's Leg

Seventy-nine-year-old J. H. McNeely of Franklin was putting up fence Tuesday afternoon at his home and while using a fence stretcher received a fracture of his lower right leg when the stretcher broke loose from its hold and struck him.

Mr. McNeely was taken to Passavant hospital where the break was set and he was taken home. Dr. T. J. Tinsley of Waverly was the attending physician.

Helping Baby Learn To Talk Can Be Great Experience

Parents can enjoy one of the most fascinating experiences of life — watching and helping their child to talk, by making the baby be at ease with words.

The pattern of learning to talk starts almost with the hour of birth and proceeds in a steady series of steps, that can be anticipated and

assisted if the parents understand what is happening.

Most important fact to be recognized is that speech is learned rather than inherited, and a baby's learning starts almost immediately after birth.

The first recognizable step has the infant acquiring the ability to spit and utter new notes which become identifiable in the melodic pattern of his cry. As early as the second week the general patterns of pitch, intonation, and color are noticeable in the cry.

Although the parents may never be trained observers in the scientific sense of the word, they can easily

Teen-Agers' Clothes Problems Solved By Dual Wardrobe

follow the developing characteristics of the baby's cry settles to a rhythmic character with detectable accents. These are the most essential elements of emotional speech and the utmost importance to the child's later life.

The fascination of this early development process can be enjoyed even more by the parents' care with words, by not indulging in over-emphasis, and by conversing in an uncomplicated manner and completely freely and at ease when with the child. Even at his tender age, the importance of simplicity and ease has been repeatedly proven to be of vital assistance in creating a normal development.

NO GOOD REASON FOR BALKING AT VISIT TO BARBER

There's really no good reason why little boys need balk when taken to the barber shop for their first haircuts. When they do they just haven't been properly prepared for the loss of their curls.

Since little boys delight in imitating their fathers, best way to help them over this essentially masculine experience, is for dad himself to take charge.

Let dad take Junior along on a few occasions, when dad goes to get his own hair cut. Chances are Junior will soon be bawling that he wants his "just like dad," in short order. And the traditional scene is obviated.

HARDER IN WINTER

Children are harder to awake in winter because the snowy season demands at least a half-hour more of rest. In winter, children should be put to bed earlier or allowed to sleep longer. Awaken children gently, or allow them to awake spontaneously.

TEACH SELF CARE

Showing the young child how much fun it can be to paint on his own mercurchrome or iodine after a fall will not only distract him from the slight pain caused by the bruise, but will also teach him how to care for himself.

Teen-Agers' Clothes Problems Solved By Dual Wardrobe

BY GAILE DUGAS, NEA Woman's Editor

New York—(NEA)—The teen-ager who's invited out to see a movie by the boy she'd like most to date has a fashion problem. Few teen-agers can afford to spend a great deal for a date dress. And, in all probability, any dress a teen-ager does buy for date wear will have to double for school as well. This means that it can't be elaborate or fussy.

In shopping for this important dress, she should look for good design rather than fancy trim, a color that will dovetail with the things already in her wardrobe and a fabric that will take readily to soap and water. She should also look for a price tag that tells her she's getting good, sound value for her money rather than a so-called "bargain."

Fortunately for her, she'll find fashions that no other country in the world could begin to offer her. If she shops wisely and well, she'll get full value for her cash.

The teen-ager (above) who's movie-bound chose a budget-priced embossed cotton by Kate Greenaway. This is in aqua, has a full skirt, cap sleeves and a three-tiered yoke that's buttoned with tiny glittering rhinestones. There's a self-belt.

Baby Sitting Teens Learn Responsibility

BY ALICIA HART
NEA Beauty Editor

Baby-sitting has become a teen-age profession that is not to be taken lightly. If you've been giving some thought of spending several evenings a week with a neighborhood baby, it is important that you understand exactly what is expected of you.

Above all else, recognize the responsibility that is involved when you baby sit. You are putting yourself in the position where you must answer for an infant's well-being.

Taking care of a baby means constant vigilance. Half-hearted measures won't do. You must be constantly alert for any needs of the baby. Never take yourself out of listening range. Don't become so engrossed in a book or radio program that you forget about your duties.

Before your first night of baby sitting, have a talk with the parents. Find out from them where things are. Ask about the baby's likes and dislikes. Familiarize yourself with the baby's room. It is even important for you to spend several afternoons after school playing with the child. Babies are often frightened when they discover a stranger is taking care of them.

Your friends should stay out of your work, too. Having long telephone calls or visitors is not good business. This is one job that demands your undivided attention.

Finally, before the baby's parents leave for the evening, be sure you know where you can reach them. In an emergency, it is not wise to rely on your inexperience. They are the ones to solve any major problem.

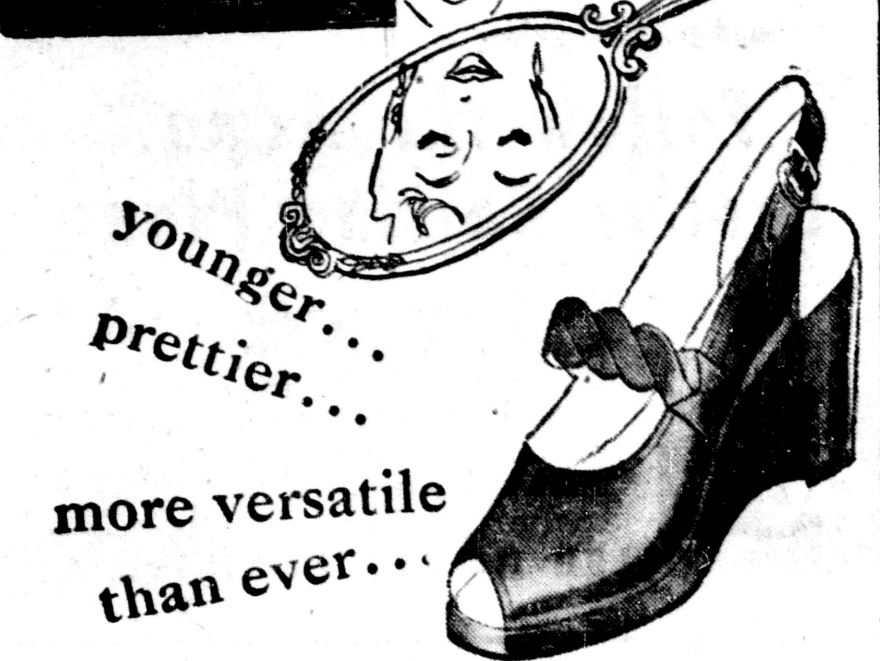

Colorfast articles should be washed separately so that no lint from light fabrics will cling to them.

Household Hints

The window corner of your dining area may also be a well-lighted spot for a sewing machine. Between meals, the dining table can be used for cutting patterns.

Always shrink new material before using it to patch anything that has been dry-cleaned or washed—or the patch may shrink and pucker.

Pulled-out shoulder straps on slips often take pieces of the garment with them. Mend these by setting in little diamond or triangular-shaped patches.

CLEANLINESS IMPORTANT
Even after sterilizing days are over, it is of the utmost importance to keep baby's dishes and foods absolutely clean. To insure their cleanliness, scrub jars and cans of food with hot suds before opening. Dip baby's dishes into hot soap and water before use as well as immediately after.

More Verdicts Set Values Of Condemned Land

Condemnation proceedings against several tracts on West Morton avenue, where the by pass on U. S. Routes 36-54 will be located, were completed Wednesday morning in county court when a jury returned three verdicts fixing property values and damages.

In a suit in which there was no contest on the evidence, the jury fixed the value of a tract owned by Garrett N. Cruzan et al at \$4,000. This lot consisting of 355 foot frontage and 65 feet in depth, is situated on Morton avenue and has a two room house. Cruzan was awarded \$500 severance damages to another tract, his home being south of the land taken for the highway improvement.

The jury returned another verdict finding \$1,687 to be the fair cash market value of 2.55 acres owned by Pearl Boddy, Byron Boddy and Marie Hunter.

The final verdict awarded Lawrence Coveia the sum of \$529.30 for a tract of 68/100 of an acre.

The last two verdicts were based on agreements reached by attorneys, and the proceedings were necessary because of title questions.

Harry G. Story was attorney for Mr. Cruzan et al. Representing the State were Bruce Thomson, assistant to the attorney general, and William L. Pay, special council. Charles J. Ryan served as guardian ad litem for minor defendants.

New Law Gives Anglers "Break" In Bass Fishing

Springfield, Ill., April 30—(P)—Largemouth bass fishermen are harvesting big catches this spring and there's no law to interrupt them as it did in the past.

Reports from all over the state tell of one and two pounders and even of a 10 pound whopper being caught.

Before the 1951 legislature removed the restriction, largemouth bass fishing became illegal in April, just when it was getting good, because the bass were supposed to be spawning then.

Fish biologists convinced the conservation department and the legislators that fish don't spawn according to the calendar but when the water temperature suits them. One year in Illinois, bass spawned

and then the water froze—out of season.

The new law also encourages fishermen to take more fish which the biologists say are too numerous for the food available.

Now largemouths can be taken any time in the year. The reports show that anglers in their new spring liberty are making the best hauls before the weather gets hot.

Alvin Gates of near Harrisburg latched onto a ten pounder recently in Sahara lake. Believed to be the largest bass caught in Saline county, it was 25 inches long and 20 inches around the middle.

O. F. Habermehl of Dupu snagged a 9 pound, 6 ounce bass from Grassy lake in Williamson county early this month.

Other seven, six, five and four pound bass were hauled out of lakes at Decatur, Olney, Jacksonville and Crab Orchard, Chain O'Lakes anglers in Lake county told of good bass catches, including specimens of five and four pounds.

Nab Hitchhiker Salesman Talked Out Of Robbery

Chicago, April 30—(P)—A man identified by a Chicago automobile salesman as a hitchhiker he talked out of robbing him by persuading the man to make the salesman a partner in future robberies was arrested by police last night.

The prisoner, James Sullivan, 23, failed to keep a police trap rendezvous arranged by the salesman but another policeman picked him up nearby because he resembled a suspect in a drug store robbery.

Sullivan had two pistols in his possession, one unloaded. Police said he told them he intended to give the unloaded gun to the salesman, Ray Van Dolah, 23.

Police said Sullivan told them he had served two prison sentences. He was held without charge for questioning.

Van Dolah said he picked up Sullivan at Bloomington on his way back from a business trip to Decatur. When Sullivan drew a gun and announced a stickup, Van Dolah bragged of a non-existent criminal record and asked to be cut in as partner in a series of robberies.

CHICAGO LIVESTOCK MARKET REPORT

Chicago, April 30—(P)—Livestock prices developed split trends today. Hogs were steady to 25 cents higher, but cattle and sheep were steady to 50 cents lower. Supply factors were the principal influences in each class.

In hogs, the run of 9,000 was down 1,000 from trade expectations. Most butcher weights moved out at \$16.75 to \$18.00, the top and highest price since March 4. Sows took \$13.75 to \$16.25 with a few as high as \$18.50. Shipping demand continued strong with order buyers removing 2,000 from local slaughtering channels. Clearance was good.

An estimated 11,000 cattle in the sales pens were 2,000 higher than expected and the heaviest Wednesday run since January. Good to prime steers ranged from \$28.75 to \$37.50 with two loads getting up to \$37.90 and \$38.00. Good to prime heifers took \$28.75 to \$36.25. Cows ranged downward from \$25.50, sausage bulls from \$28.00, beef bulls from \$27.00, and vealers from \$38.00. Around 400 calves were on sale.

While the 1,000 sheep were well off indications for 2,500, recent heavy arrivals continued to weigh on the market for lambs. Most wool-kinds brought \$27.00 to \$28.50 with shorn \$27.50 downward. Slaughter ewes remained at \$13.50 and below on good and poorer offerings.

New York Stock Market

New York, April 30—(P)—The stock market backed down slowly today in the presence of nationwide strikes in the steel and oil industries.

Recovery tries were made from time to time, but prices were kept on the losing side by fractions to around 2 points. There were scattered fractional plus signs.

Volume was restricted to an estimated 1,100,000 shares as compared with 1,170,000 shares traded yesterday.

There was a complete absence of selling pressure. The mark down in prices reflected widespread Wall Street caution resulting from the strike of 650,000 steel workers and some 90,000 oil refinery and pipeline workers.

Lower were U. S. Steel, Bethlehem Steel, Republic Steel, General Motors, Chrysler, New York Central, Texas Co., American Smelting, Kennecott Copper, Allied Chemical, American Can, and Philco.

CORN PACES RETREAT OF GRAINS ON BOARD

Chicago, April 30—(P)—Corn paced a retreat in all grains on the Board of trade today, tumbling to new low prices for the year.

The market held fairly steady during the first couple of hours with soybeans showing flashes of strength. Then a downward trend started. It gathered momentum as the session wore along.

Heavy deliveries of cash grain, probably in excess of two million bushels, were expected on May corn contracts tomorrow. That was one reason for the grain's weakness.

Another was a limited demand for cash corn as some leading processors were out of the market.

Other adverse influences included more rain in Kansas, a lowering of the parity figure for wheat, news of large supplies of soybeans on farms and uncertainty about the general economic picture because of the outbreak of strikes.

Preliminary estimated receipts of grain in carlots: Wheat none, corn 96, oats 3, rye none, barley 16 and soybeans 16.

Wheat closed 13 to 2 cents lower, May \$2.41, corn 21-31 lower, May \$1.76-1.81, oats 3-11 lower, May 76-81, rye 11-21 lower, May \$1.94-\$1.99, soybeans 3-11 lower, May \$2.87-\$2.91, and land 8 to 22 cents a hundred pounds lower, May \$10.52.

Browns-Yanks Divide Important Twin Bill

By Joe Reichler
New York, April 30.—(P)—Ripping into Vic Raschi for five runs in two innings, the revamped St. Louis Browns today blasted out a 9-4 first game victory over the New York Yankees but had to be content with a split in the doubleheader. Allie Reynolds throttled them with a four-hit 4-1 Yankee triumph in the nightcap.

St. Louis Manager Rogers Hornsby threw in six rookies against the world champions in the opener but it was a pair of grizzled veterans—Marty Marion and Satchel Paige—who did most to pave the way for Raschi's first defeat of the season.

The 34-year-old Marion, showing the same brilliant form that established him as "Mr. Shortstop" of the National league for a dozen years, rapped out a single and two doubles, drove in two runs and scored another.

The Browns collected 13 hits in the opener, five of them off Raschi who bowed out for a pinch batter in the second inning. It was the first time St. Louis has beaten the Yankees in three seasons. Raschi's lifetime mark against the Browns is now 14-3.

Pirates Break Losing Streak, Trim Braves 11-5

Pittsburgh, April 30.—(P)—The Pittsburgh Pirates broke their 10-game losing streak with a 11-5 victory over the Boston Braves today but had to survive three Boston home runs to do it.

Murry Dickson won his first victory after three setbacks. He held the Braves to two hits going into the eighth when a five-hit attack routed him in favor of Ted Wilks. Every player in the Buc starting lineup got a hit except catcher Joe Garagiola. George Metkovich had a three-run homer in the seventh inning.

Stanky In Lineup As Redbirds Belt Brooklyn 14-2

St. Louis, April 30.—(P)—Manager Eddie Stanky made his home debut as a player with the St. Louis Cardinals tonight, drawing three walks and belting a two-run double in a lineup shakeup that produced a 14-2 victory over Brooklyn, breaking a three-game Dodgers winning streak and a similar string of successive Redbird defeats. Gerry Staley became the first major league pitcher to win four games this season.

Staley's seven-hit triumph, his ninth straight since last August, was made easy by a six-run St. Louis outburst in the first inning against lefthander Chris Van Cuyk and righthander Carl Briskine.

The Cardinals then went on to club four Brooklyn hurlers for 14 hits, including a grand-slam homer by Red Schoendienst, a double and two singles by Peanuts Lowery, who has had 10 blows in 15 trips this season, and a pair of two-baggers by Stan Musial.

In Manager Stanky's shakeup of his lineup, the little scrapper went to second base. Schoendienst shifted to third, Wally Westlake played center field and third baseman Billy Johnson and right fielder Elmer Slaughter were benched. Every player in the revised batting order collected at least one hit.

Ted Williams Sings Swan Song, Homer Wins Game

Boston, April 30.—(P)—Ted Williams said his second baseball farewell in 10 years with a game-winning two-run homer today to give the Boston Red Sox a 5-3 victory over the Detroit Tigers.

Williams' first 1952 four-bagger, the 324th of his major league career, strengthened the Red Sox' hold on first place as he left them to join the U. S. Marines for a 17-month tour of duty as a flyer.

Making his first appearance in the starting lineup since the opening game in Washington, during which he pulled a leg muscle, Williams homered into the right field stand against Dizzy Trout with Dom DiMaggio on base in the seventh to break a 3-3 tie.

A WILDCAT HITS THE DIRT

Winchester shortstop Don Lashmet executes a neat hook slide to elude ISD third baseman Lowell Kummer's tag during a non-conference game between the two schools Tuesday afternoon.

Winchester won the game 9-6. It was ISD's first diamond setback of the season. Coach Potay Clark announced last night that his Tiger squad would not play Arenzville this afternoon as previously scheduled.

White Hall Thinclads Favored In Valley

By Bill Chipman
Jerseyville.—The 24th annual Illinois Valley conference track and field meet will be held at Roodhouse Friday afternoon and evening.

Carrollton will be shooting for a fourth consecutive title, but this year White Hall appears to have the depth to break the Hawks' domination.

Coach Anderson's Hawks will have the outstanding individual performer in versatile Lyndell Smith. The big boy will defend his high jump and both hurdles titles.

White Hall has four boys who will be back to defend titles. Lloyd Meyers in the 100 yard dash, Don Bertman in the 220, Dennis Dawdy in the pole vault and Ronald Ridings in the broad jump. David Ridings is favored to annex the 440 this time while Ted Priddy should place high in the vault.

Time trials will start at 3 p.m. with the finals set for 7:45. Illinois Valley Track and Field Record Book—McKenna, Pittsfield; time 10:1; 1938.

NORTHWESTERN 2
NOTRE DAME 1
Evanston, Ill., April 30.—(P)—Northwestern topped Notre Dame 2-1 today on an 11th inning single by catcher Larry Jones.
Jones singled home Bob Will to end the game, doled back in the fifth inning. Notre Dame batters failed to hit safely after the fifth. It was the ninth win in 12 starts for Northwestern, leading Big Ten play with four straight victories.

Michigan State's baseball team has been taking spring training trips into the deep south regularly for 25 years.

Marion Key To Browns' Success

New York, April 30.—(P)—Manager Rogers Hornsby believes the signing of the veteran shortstop Marty Marion was the greatest thing that has happened to the St. Louis Browns.

"No player has done as much in so short a time as Marion has done for us," the Browns manager said. "Marion is the glue that is holding the infield together. He's been an inspiration to the others. He's a major leaguer on and off the field and he's been a great influence on the boys."

Hornsby thinks the Browns' future success depends upon how many games Marion can play. He hopes Marion can play at least 100 games. The 34-year-old veteran "Mr. Shortstop" of the National league was out of action all last year following a knee operation. The 6-4 thin man also is bothered by a chronic back ailment.

"This is a better club than people believe," said Hornsby. "It is not playing over its head as many seem to think. It is simply a result of the way I know he can." Next to Marion, Hornsby thinks the club has been helped most by the acquisition of Jim Rivera, the rookie centerfielder who led the Pacific Coast league in batting last year with a .352 mark.

"Rivera hasn't started to hit yet the way I know he can," said Hornsby. "But he's done a wonderful job for me in centerfield. That boy has supreme confidence in himself. He thinks he is better than anybody else. That's half the battle."

"The boy has been sick with a nervous stomach," said Hornsby. "I still think he'll hit once he gets straightened away." Hornsby takes pride in the manner in which he's molded a big four on his pitching staff. Twenty game winner Ned Garver now is supplemented by lefthanders Tommy Byrne and Bob Cain and righthander Duane Pilette. Byrne was acquired last summer from the Yankees and Cain came via trade with Detroit last February. Neither had a winning year in 1951. Each has a 2-0 record this season.

"They've always been good pitchers," said Hornsby. "The only thing wrong with them was their wildness. I haven't done a thing except to stress the importance of getting the ball over the plate."

To date, Byrne and Cain each have walked four in 18 innings. Garver three in 23 and Pilette three in 15. That's an average of less than two per game.

Blueboy Nine Hosts Wesleyan This Afternoon

The Illinois college Blueboys, who racked up their first Little Nine conference baseball victory of the season at Carthage Tuesday, will take on powerful Illinois Wesleyan for the benefit of local fans this afternoon.

Coach Joe Brooks Hilltop collegians will pit their 1-1 record against Jack Horenberger's Titans in a game scheduled to start here at 3 o'clock.

Wesleyan dropped a 2-0 decision to the University of Illinois two weeks ago. The Titans promise to be plenty rugged for their Little Nine foes again this season.

Coach Brooks will probably start Gene Calahan on the mound today. Another choice could be regular shortstop Walt Lubes, twin brother of Fred who pitched the Blueboys to victory Tuesday.

Chicago, April 30.—(P)—The head of the National Collegiate Athletic association today said it will make an inquiry into athletic policy and practices at the University of Kentucky.

Hugh C. Willett, president of the NCAA, issued a statement saying: "The press reports of the indictment by Judge Streit of certain athletic practices alleged to have existed at the University of Kentucky are of sufficient detail and importance to prompt me to request the membership committee of the NCAA to initiate inquiry as to the present status of athletic policy and athletic practices at that institution."

NEAR RECORD
Philadelphia, April 30.—(P)—Cleveland's 21 runs against the Philadelphia Athletics Tuesday night was eight short of the American League record. That mark was set by the Boston Red Sox on June 8, 1950 when they scored 29 runs against the St. Louis Browns.

Washington, April 30.—(P)—Eddie Robinson's home run off 43-year-old Bobo Newsum with two out in the 11th inning presented the Chicago White Sox a 4-3 victory over Washington in the second game of a twilight double-header after the White Sox also won the opener, 7-3.

Arizona State Names Clyde Smith As Football Coach

Tempe, Ariz., April 30.—(P)—Clyde Smith, former grid mentor at Indiana University, today was named head football coach at Arizona State College at Tempe.

He will replace Larry Siemering who resigned in the wake of a scandal over use of an ineligible football player all last season.

No details of the agreement between Smith and the college were immediately available.

Until today all indications pointed to naming Don Campora, chief assistant to Siemering to the head job. Smith and Glen Harmon, Purdue backfield coach, visited the campus today.

Dr. Grady Gammage, college president, announced the appointment.

Set New Vault, Discus Records In ISD Meet; Tigers Beat JHS 66-46

Two school records went by the boards as Coach Jim Spink's Illinois School for the Deaf thincclads won their triangular meet over Jacksonville high school and New Berlin yesterday afternoon.

ISD's Tom Kibicka heaved the discus 130-5 to surpass Bob Leiders' 127 foot record established in 1950.

Dick Barnes, slight Jacksonville high school left-handed pole vaulter, soared 10-6; to set a new Crimson record in that event. Jim Butcher held the old mark of 10-6, made in 1949.

The Deaf cinder-trodders scored 66 points to outpace Jacksonville by 20 points. New Berlin ran third with five tallies.

Ron Kemp of Jacksonville high was the iron man of the meet. The basketball and football star competed in six events for Hal Wimberly's team and captured two firsts and three seconds. He also ran in the relay.

ISD's Bill VanSpankeren wasn't far behind the husky Crimson. The Tiger ace won the broad jump, 220 yard dash, 180 yard low hurdles. He ran second in the 100 and anchored the winning relay team.

VanSpankeren actually beat Kemp in point production, 18 tallies to 17 for the Crimson.

Traveling Gavel Reaches Kiwanis At Winchester

Winchester—The traveling gavel which is being circulated among the Kiwanis clubs of division 11 was presented to the Winchester club by Reed Hensley, president of the Tallula club, at the meeting of the local Kiwanians Tuesday evening.

The gavel was received by Vice President Norman Herren, in the absence of President Lenlis Williams.

Three other members of the Tallula club were present and two members of the Petersburg club.

The program was in charge of the visiting Kiwanians and was presented by John E. Grosbell, state's attorney of Menard county, who described the play, "Forever This Land," which was presented last summer at New Salem State Park by the New Salem Lincoln League. He stated that more than 50,000 people saw the play during its two month run in the open air theater at the park.

He said that plans are being made to present the play this year, June 28-Aug. 24.

Grosbell showed colored slides which were taken of scenes in the play and gave a narrative account of the story in connection with the slides.

R. R. Funk, chairman of the interclub relations committee of the Winchester club, announced that the traveling gavel will be taken to the Virginia club May 19.

Hold Annual Concert

The annual concert by the Winchester high school band and the girls' boys' and mixed choruses of the high school was held in the auditorium Tuesday evening.

The band under the direction of Thomas A. Springer presented a program of selected marches and overtures. The band included 28 pieces.

The boys' and girls' and mixed choruses under the direction of Miss Lucille Hendershot presented a variety of well known favorites and classical numbers and several numbers from "The Red Mill." The chorists included 39 voices and the accompanists were Irma Batley, Gary Stuart and Dorothy Smith.

Arabian Student To Speak At Final Union Service

The last union church service of the winter season will be held in the Central Christian church Sunday at 7:30 p.m.

Bassim Nijm, an Arabian student at the Chicago Lutheran Theological Seminary, will be the special speaker. He was born in Nazareth on Dec. 27, 1927, and was educated in the government schools at Tulkarm, Nazareth and Jerusalem. In 1940 he entered St. George's School, and upon completion passed examinations for London matriculation and the Oxford and Cambridge School certificate examination.

He began working in 1946 in the Arab Bank at Jerusalem. A year later he resigned to work in the law courts. Troubles in Palestine made Bassim Nijm and his family refugees in the Old City. He then went to Irbid-Transjordan and worked as a teacher.

Living among so many thousands of refugees and feeling their misery, he felt that he must do something as a Christian to help them, and since he felt that the Lutheran church was first in aiding his people, decided to study for the Lutheran ministry.

Nijm has been at the Chicago Lutheran Seminary since last September. Rev. Leslie Heuston, pastor of the host church, will read the scripture and lead in prayer and Rev. Frank Marston, pastor of Grace Methodist church, will preside.

Services Friday For Sharon Beemer

Services for Sharon Ann Beemer, 22 months old, will be held at the Williamson Funeral Home at 2 p.m. Friday. Rev. William J. Boston will officiate.

City And County Police Continue Search For Man

City and county police officials continued Wednesday to aid relatives in their quest to find Alvey Garrison, 66 year old Jacksonville man, who has not returned to his home, 613 S. Church street, since he left there early Friday afternoon.

Police in Granite City, Ill., and Kansas City, Mo., contacted other relatives. All reported they had not seen the missing man for some time, from six weeks to eight years.

Earlier this week relatives living closer, in Williamson, Peoria and Tazewell counties, were contacted by the local police. None of them said they had seen him recently.

Five men who saw Garrison Friday night and early Saturday morning were interviewed by police officers last night.

White Hall Parents Attend Wedding Of Son In Iowa

White Hall—Mr. and Mrs. Irvin J. Green and Miss Edith Chapin attended the wedding on Saturday night of the Greens' son, Richard Chapin Green, and Miss Ellen Joan Fife, which took place at the First Methodist church in Corning, Iowa.

The bride was attended by Mrs. Robert Green, sister-in-law of the bridegroom, as matron of honor and Barbara Shepard of Glen Falls, Ill., and Rheta Dehl of Minneapolis, Minn., as bridesmaids, the latter two being schoolmates of the bride at Grinnell college.

Martha Meyer, niece of the bridegroom, served as flower girl. The six ushers included two of the bridegroom's brothers, Judson Green of Quincy and Donald Green of Corning.

A reception at the church for 200 guests followed the ceremony. The couple left later for a wedding trip. They will make their home in Norfolk, Va., where Green is stationed on the SS Tadmus of the navy.

Mac Murray College, Jacksonville Hosts To State Music Contest

More than 2,000 high school students and their faculty advisers will converge on Jacksonville Thursday afternoon and evening to be ready for the first events of the Illinois music contest for Class B high schools beginning Friday morning. A total of 99 schools, ranging from Harvard community high school on the north to Cairo high school in the south, will be represented.

According to Prof. Henry F. Busche, general chairman of the state meet, the contest will be divided into 38 divisions, and approximately 735 separate entries, both individuals and organizations, will compete for medals and certificate awards.

The high school garnering the highest number of points during the meeting, which will last through Saturday, will be given a grand sweepstakes prize. The runner-up school also will receive special recognition.

Jacksonville high school is not entered in the competition here, as it is a Class A high school. The Class A contest took place in Champaign-Urbana last week. The contests for Class C and Class D high schools will take place simultaneously with those here, the former at Bradley University, Peoria, and the latter at Western State Teachers College, Macomb.

Class B schools range in size from 50 to 550 students, Class C from 150 to 250, Class D under 150, and Class A more than 550.

Contest Sponsor and Hosts
Sponsor of all the contests, this week and last, is the Illinois High School Association. MacMurray College and the city of Jacksonville are the hosts to the Class B contest, with Prof. Busche of the MacMurray music department general chairman of arrangements.

Others on the committee from MacMurray are Clarendon Smith, in charge of equipment and sites for divisional contests; Miss Marjorie Tubbs, personnel; Miss Susan LaPierre, information; Miss Yvonne Mason, secretarial force; Miss Joan Thompson, choir concessions; Miss Margaret Morrison, student guidance.

Jacksonville high school, although not entered in the contest here, is cooperating with the general arrangements committee, as are members of the local board of education. Rooms for the 1,800 contestants have been obtained by the J.H.S. Band Parents organization, according to Mrs. Friedrich Engelbach. She added that accommodations are still to be found for 70 students.

"But we are seeing daylight," Mrs. Engelbach commented. MacMurray College announced it will house 188 girls during the meet. About 1,400 thus far have been provided for among residents throughout the city.

The 38 divisional contests will consist of both individual voice and instrument solos and group voice and instrument events. Thirteen contests will go on simultaneously in various locations throughout the city Friday and Saturday. They will get underway at 8:30 a. m. each day.

Sites for the Evenings
Sites will be MacMurray College, the Jacksonville high school auditorium, Centenary Methodist church, Franklin school auditorium, the rectory of the Trinity Episcopal church, Central Christian church, Grace Methodist church, State Street Presbyterian church, The Baptist church and the auditorium of the Illinois School for the Blind.

Harry Smith Is 50 Year Member Of Illini Lodge

Harry Smith, a member of the Illini Lodge 4, IOOF, was presented with a 50 year jewel in ceremonies held Tuesday night at the IOOF Temple on East State street. Mr. Smith joined the local lodge exactly fifty years ago, April 29, the date of the presentation.

A dinner was served by the members of the Rebekah lodge 13, preceding the ceremony and program. Lodge member Henry Peters intro-

duced Fred R. Bailey who was chairman of the evening. A clarinet solo was played by Robert Wright who is a pupil of G. A. Schutte.

Fifty year members who were present at special guests were Albert Phillips, John Phillips, Henry Zepfenfeld, G. A. Sieber and Dr. George Bradley; also J. D. Rowe of White Hall who is a 62 year member in his lodge. Mr. Bailey introduced the past grand master, E. C. Brasel who in turn introduced the grand officers of the state Grand Lodge: Russell Pieper, grand marshal; Clyde McAllister, trustee of the endowment fund and the grand master, H. Dean Frazelle who made an address and also presented the fifty year jewel to Mr. Smith.

After the ceremony the lodge met in sessions and the Pittsfield degree staff gave the third degree to Marshall Robinson a new member of the Illini lodge 4. The committee in charge of the arrangements included E. C. Brasel, Henry Peters and Fred R. Bailey.

Franklin FFA Rates High At Section Meet

The Future Farmers of America chapter at the high school at Franklin, Ill., received high honors at the section 15 contest held April 24 at Carrollton.

Franklin won second place for its program of work. Randall Austiff won a first place for soybeans; Murray Burnett, first in sheep and others entered were in beef production, Carroll Newingham; swine production, Robert Mullens; dairy and poultry, Darryl Strubbe and electricity, Eddie Bergschneider. Many chapters competed from Morgan Scott, Macoupin, Greene, Jersey and Calhoun counties.

SERVICE SUNDAY FOR SHUT-INS AT GRACE METHODIST

A special service will be held in Grace Methodist church next Sunday afternoon at 4 o'clock, for all the shut-ins of the congregation and their friends.

Arrangements for transportation have already been made by Mrs. W. E. Hall. The minister, Dr. Frank Marston, will preach a special sermon on the subject, "Shadows of the Evening." Mrs. G. O. Webster will preside at the organ and Miss Laura Smith will be the soloist. The singing of familiar hymns will be a special feature of the service.

Immediately following the service, there will be a fellowship tea in the social rooms of the church.

Norma J. Sperry Weds Sgt. Green At Northminster

Miss Norma Jean Sperry, daughter of Mr. and Mrs. W. L. Sperry, 124 East Wolcott street became the bride of Sgt. John W. Green, son of Mr. and Mrs. John W. Greene, Sr., 402 Hardin Avenue in a ceremony performed Sunday afternoon at the Northminster Presbyterian church by Rev. Frank C. Janssen.

Preceding the ceremony Mrs. Laura Smith played "Because," "Ave Maria" and "I Love You Truly" in addition to the traditional wedding marches at the church organ.

Miss Shirley Ann Sperry was her sister's only attendant and Cecil Dixon was the best man. Ushers were Earl Spradlin, uncle of the bride and Fred Meadows of Franklin, cousin of the bride.

For her wedding Miss Sperry wore white organdy over pastel pink taffeta, street length and fashioned with fitted bodice and full skirt

with pink ribbon sash tied in a bow at the waist. A small white hat with a white nylon veil and white accessories completed her costume. She wore a corsage of pink and white carnations at the shoulder. The bride was given in marriage by her father, W. L. Sperry.

Her attendant chose pale yellow organdy over a matching taffeta slip styled similar to the dress worn by the bride and worn with a black ribbon sash. She wore white accessories and a small white hat trimmed in black with her corsage being of white carnations.

Mrs. Sperry wore for her daughter's wedding a blue gabardine suit with black accessories. Mrs. Green wore navy blue bengem with black accessories. Both mothers wore corsages of white carnations.

The bridal party and members of the families were entertained at a small reception at the home of the bride's parents. The table was decorated with spring flowers and tall candles. A pink and white three tiered wedding cake, topped with a miniature bride and groom, was cut and served with Miss Patsy Sperry, sister of the bride and Miss Betty Shrum of Hannibal, Mo., cousin of

the bride assisting. The newlyweds left in the early evening for a motor trip north. For traveling the bride wore a navy blue crepe dress, lace trimmed, and white accessories.

Both Sgt. and Mrs. Green attended the local high school, the bride graduating with the class of 1951. Sgt. Green has served for the past four years in the armed forces, two of which were in Japan and Korea. He will now be reassigned to a post in the States. The bride is employed in the office at the Passavant hospital.

RANSON WILL FILED

The will of the late Charles L. Ranson was filed recently, naming a number of relatives to receive various shares of his estate. Mr. Ranson authorized his executors, Thos. B. Ranson and J. Rex Ranson, to lease and manage real estate pending its sale. He instructed the executors to convert the real estate into cash within a period of five years.

Mr. Ranson made his will Feb. 4, 1931, witnessed by William G. Goebel, Harry K. Chenoweth and Edward M. Dunlap.

Births

Mr. and Mrs. Theodore Donovan Jr., of Virginia route three became the parents of a daughter born at 3:29 p. m. Tuesday at the Passavant hospital.

A seven pounds, one ounce daughter was born to Mr. and Mrs. Raymond Nunes of 1030 North Church street at 6:56 a. m. Wednesday at Our Saviour's hospital.

Alias Basil Willing

By Helen McCloy

Copyright 1951 by Helen McCloy Dwyer, printed through permission of the publisher, Random House, Inc. Distributed by NEA Service, Inc.

THE STORY: Overhearing a small, worried man use his name, Basil Willing follows him. Although Basil Willing knows the impostor, he doesn't tell him. He waits until he is alone, then he tells him. He tells him that he is a psychiatrist. He tells him that he is a man who is a psychiatrist. He tells him that he is a man who is a psychiatrist.

III BASIL WILLING'S first impulse was to look at Katherine Shaw. Her eyes seemed to sink more deeply into their dark sockets and there was a blue shadow around her mouth.

Dr. Zimmer was approaching the little man. "Is it really Dr. Willing at last?" "Yes, yes!" He was almost panting. "Sorry I'm so late. I had an awful time getting a taxi on Third Avenue. Then we were held up by a traffic block."

"Don't distress yourself," Zimmer's glance flickered in Basil's direction as he laid a kindly hand on the little man's shoulder. "I'm sure it was not your fault."

It came to Basil, with irony, that Zimmer must believe this little man the real Dr. Willing, since he had been announced in the usual way. Basil himself, who had slipped in anonymously, would be taken for the impostor if he proclaimed himself as "Basil Willing" now.

Something clattered on the hearthstone. Miss Shaw had dropped her ivory-handled cane. Zimmer was the first to reach her side, leaving the little man stranded alone in the middle of the room.

"My dear Miss Shaw!" Zimmer picked up the cane by his hand, then shifted his grip to the cane itself as he slid the handle into her grasp.

"Thank you, Dr. Zimmer," Her slightest smile wavered.

THE little man drew near, a crimson glass in his hand. Rosamund flashed him a brilliant smile. "Dr. Willing!" She cried with burlesque cordiality. "What a great pleasure! I thought you were still overseas."

The false Willing took a little time to set his glass down precisely on a nearby table. "I got back quite recently."

Rosamund shifted her line of attack. "I've always wanted a chance to discuss the Heisenberg variation with you."

"The—ah—Heisenberg variation?" The little man looked as if he would like to strangle Rosamund. "It—well—it hardly seems quite the moment to discuss a thing like that, does it?" He looked desperately at Basil. "I

When natural silk is produced in cold countries, heat must be applied to the eggs to cause them to hatch, usually in incubators, but sometimes in primitive areas through contact with the human body.

Winchester High Seniors Present Popular Comedy

Winchester—The Senior class of the Winchester High School presented the play "Meet Corliss Archer" to a large and appreciative audience in the high school auditorium Friday evening. The play, a comedy which is a take-off from the popular radio program, proved highly entertaining and the characters were well cast.

A gift from the class was presented to Mrs. Loretta Glossop, director of the play, between the second and third acts by Miss Suanne Sanderson. Preceding the play the high school orchestra played several numbers under the direction of Thomas Springer.

JUNIOR SHOULD HELP DO DISHES

Chicago—(P)—Child psychologists overwhelmingly agree that little Johnnie should help with the dishes.

This depressing fact for the younger set comes to light as the result of a nation-wide survey by the parent's consultation service of the Book House for Children. Eighty-eight per cent of the 88 psychologists quizzed said little boys should be expected to do simple domestic chores.

The only ray of hope lay in a small number of psychologists who thought more masculine chores should be assigned particularly where there was a little sister around to help with the dishes.

RIDING HIGH—Sandy, the Alsatian perched on the back of Cpl. Colin Garner, RAF, is a Royal Air Force police dog, so high-altitude riding should be routine for him. He and his handler are practicing in Netheravon, England, for the annual Royal Tournament in June.
